Number of jobs created - 4

Execution period	2013-2019
Estimated cost	648.2 million rubles
Execution territory	Tomsk
Investor, Activity Owner	AO "Sibcabel"

IN NUCLEAR POWER FIELD

1

Construction of a Fabrication Module And a Start-Up Module For Refracting Dense Mixed Uranium-Plutonium Fuel For Fast Neutron Reactors

Production of dense mixed uranium-plutonium fuel: by fabrication - 14 tons / year, by refactoring - 5 tons / year

Number of jobs created - 200

Execution period	2012-2020
Estimated cost	20,765.99 million rubles
Execution territory	Closed Administrative-Territorial Unit Seversk
Investor, Activity Owner	AO "SCC", GK "Rosatom"

2

Construction of a Module For Reprocessing Spent Nuclear Fuel From Fast Neutron Reactors

Production of mixed oxides of uranium and plutonium for refactoring - 5 tons / year

Number of jobs created - 300

Execution period	2014- to be specified
Estimated cost	to be specified
Execution territory	Closed Administrative-Territorial Unit Seversk
Investor, Activity Owner	AO "SCC", GK "Rosatom"

3

Construction of a Pilot Demonstration Unit With a Fast Neutron Reactor With Lead Coolant (BREST-OD-300)

Development of a new generation of nuclear power technologies, the creation of a pilot model of an industrial reactor on a lead coolant with a stationary nuclear fuel cycle. Electric power - 300 MW / year

Number of jobs created - 650

Execution period	2013- to be specified
Estimated cost	to be specified
Execution territory	Closed Administrative-Territorial Unit Seversk
Investor, Activity Owner	AO "SCC", GK "Rosatom"
